

# Mid-Atlantic SETAC Spring Meeting on April 20-21, 2020

## Call For Abstracts

PLEASE SUBMIT YOUR ABSTRACT  
BY FRIDAY FEBRUARY 21, 2020

Following SETAC North America's Vision of "*Improving Environmental Quality through Good Science*" abstracts will be accepted through February 21st. We've received interest in the following topics:

- Bioavailability and Uptake of Emerging Contaminants
- Biodegradation and Sustainability in the Personal Care Products
- Updates and Advances in Environmental Modeling and Application to Risk Assessment
- Living Shorelines and Environmental Resilience in the 21st Century
- Contaminated Sediment Topics in wetlands, rivers, ports and harbors

Please join the Chesapeake-Potomac and the Hudson-Delaware Chapters of SETAC in celebrating 50 years of Earth Day!

FMC Stine Research Center  
Newark, Delaware
